

So, when we call "Factory Direct", it means that we make our own products out of our factory in China and our Sales Department in the USA will take of all the bolts and nuts for your requirements here.

We not only can custom make, decorate, and imprint your promotional product for your corporate clients, we also do OEM/ODM for quite a few major mass superstores, discount retailers and chain stores too.

Please trust us to quote your off-shore projects or programs for your orders. We will offer the finest quality products at the fairest prices. We will back that up with our excellent customer services. The most important part of our business is you ... our customer!
